Subject index*

A

Abscess
Neutrophil localization in acute and chronic experimental abscesses (Bamberger et al). 1987;109:389-95

Acetylphenylhydrazine
Consequences of erythrocytic glutathione reductase deficiency (Frischer and Ahmad). 1987;109:583-8

Acidosis
Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33

Acromegaly
Value of growth hormone dynamics and somatomedin C (insulin-like growth factor I) levels in predicting the long-term benefit after transsphenoidal surgery for acromegaly (Arafah et al). 1987;109:346-54

Actin synthesis
Actin synthesis in cultured cardiac myocytes: comparative effects of doxorubicin, dactinomycin, and plicamycin (Lewis and Gonzalez). 1987;109:67-74

Adenocarcinoma
Selective induction of hormone-dependent mammary adenocarcinoma in the rat (Huggins). 1987;109:262-6

Adenosine diphosphatase
Antithrombotic activity of glomerular adenosine diphosphatase in the glomerular basement membrane of the rat kidney (Bakker et al). 1987;109:171-7

Adenosine triphosphatase
Effects of aldosterone on rat collecting tubule *N*-ethylmaleimide–sensitive adenosine triphosphatase (Mujais). 1987;109:34-9
Triiodothyronine-induced cyst formation in metanephric organ culture: the role of increased Na-K-adenosine triphosphatase activity (Avner et al). 1987;109:441-53

Adhesive protein binding
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503

β-Adrenergic blockade
β-Adrenergic blockade: augmentation of neutrophil-mediated inflammation (Weisdorf and Jacob). 1987;109:120-6

Alcoholism
Use of the triolein breath test in alcoholics with liver damage (Korsten et al). 1987;109:62-6

Aldosterone
Corticosterone methyloxidase II activity during hemodialysis (Zager et al). 1987;109:178-83
Effects of aldosterone on rat collecting tubule *N*-ethylmaleimide–sensitive adenosine triphosphatase (Mujais). 1987;109:34-9

Allergy
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6

Aluminum
Development and reversibility of aluminum-induced bone lesion in the rat (Ott et al). 1987;109:40-7

Alveolar macrophage
Role of chemotactic factor inactivator in modulating alveolar macrophage–derived neutrophil chemotactic activity (Robbins et al). 1987;109:164-70

Aminonucleoside
Ameliorative effects of dietary protein restriction in chronic aminonucleoside nephrosis (Diamond and Karnovsky). 1987;109:538-44

Amino-terminal peptide
Serial determinations of the amino-terminal peptide of type III procollagen in severe chronic active hepatitis (McCullough et al). 1987;109:55-61

Amiodarone
Increased synthesis of elastin in amiodarone-induced pulmonary fibrosis (Cantor et al). 1987;109:480-5

Androgens
Prostaglandin synthesis is independent of androgen levels in rat male genitalia (Klein and Stoff). 1987;109:402-8

Anemia
Atypical cobalamin deficiency: subtle biochemical evidence of deficiency is commonly demonstrable in patients without megaloblastic anemia and is often associated with protein-bound cobalamin malabsorption (Carmel et al). 1987;109:454-63
Erythropoietin titers in anemic, nonuremic patients (Erslev et al). 1987;109:429-33

Angiotensin
Effect of Sar^1-$Ileu^8$-angiotensin on renal prostaglandin E_2 biosynthesis and excretion (Katayama et al). 1987;109:504-8

Antibody
Antibody responses to immunization of patients with nemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
Anti-endothelial cell antibodies: detection and characterization using a cellular enzyme-linked immunosorbent assay (Hashemi et al). 1987;109:434-40
Antiheparin antibodies: their preparation and use in a heparin immunoassay (Gitel et al). 1987;109:672-8
Comparison of assays for growth hormone using monoclonal or polyclonal antibodies for diagnosis of growth disorders (Levin et al). 1987;109:85-8
Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
New enzyme immunoassay of fibrin-fibrinogen degradation products in plasma using a monoclonal antibody (Koopman et al). 1987;109:75-84

Anti-endothelial cell antibody
Anti-endothelial cell antibodies: detection and characterization using a cellular enzyme-linked immunosorbent assay (Hashemi et al). 1987;109:434-40

Antiestrogen action
Laboratory models of breast cancer to aid the elucidation of antiestrogen action (Jordan). 1987;109:267-77

Antigen
Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Modulation of human tumor antigen expression (Greiner et al). 1987;109:244-61

Antiheparin antibody
Antiheparin antibodies: their preparation and use in a heparin immunoassay (Gitel et al). 1987;109:672-8

*January, pp 1-106; February, pp 107-228; March, pp 229-374; April, pp 375-520; May, pp 521-618; June, pp 619-754.

Antithrombin
Antithrombin III loss in patients with nephrotic syndrome or receiving continuous ambulatory peritoneal dialysis. Evidence of inactive antithrombin III in urine of patients with nephrotic syndrome (De Stefano et al). 1987;109: 550-5
Catabolism and distribution of functionally heterogeneous human antithrombin III (Marciniak). 1987;109:89-96
Anti-tissue-type plasminogen activator antibody
Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Anti-Xa activity
Anti-Xa activity of human hepatic triglyceride lipase (Gray et al). 1987;109:653-9
Aplasia
Long-term marrow cultures from mice with busulfan-induced chronic latent aplasia (Halka et al). 1987;109:698-705
Apolipoproteins
Association of cholesterol concentrations in low-density lipoprotein, high-density lipoprotein, and high-density lipoprotein subfractions, and of apolipoproteins AI and AII, with coronary stenosis and left ventricular function (Kempen et al). 1987;109:19-26
Aromatase
Inhibition of aromatase as treatment of breast carcinoma in postmenopausal women (Santen et al). 1987;109:278-89
Arteriovenous shunt
Arteriovenous shunting in experimental liver cirrhosis in rats (Leehey et al). 1987;109:687-91
Artery
Contraction of isolated canine renal arteries induced by the radiocontrast medium sodium diatrizoate and meglumine diatrizoate (Bentley et al). 1987;109:595-600
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
Asialo von Willebrand factor
Asialo von Willebrand factor binding to and aggregation of platelets: effects of inhibitors of platelet metabolism and function (Williams et al). 1987;109:560-5
Assay
Evaluation of a microassay for human plasma prekallikrein (De La Cadena et al). 1987;109:601-7
Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Atrial natriuretic factor
Biologic mechanisms of atrial natriuretic factor (Trippodo et al). 1987;109:112-9
Relationship between atrial natriuretic polypeptide and cyclic 3′,5′-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10

B

Bacteria
Filterability of L-forms (Darwish et al). 1987;109:211-6
Bacterial endocarditis
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52
Basement membrane
Antithrombotic activity of glomerular adenosine diphosphatase in the glomerular basement membrane of the rat kidney (Bakker et al). 1987;109:171-7
Basophil
Effects of a dihydropyridine calcium antagonist and agonist on human basophil histamine release (Busse et al). 1987;109: 422-8
BCNU
Consequences of erythrocytic glutathione reductase deficiency (Frischer and Ahmad). 1987;109:583-8
Beatson, Sir George Thomas
Sir George Thomas Beatson, M.D. (1848-1933) (Arafah). 1987;109:373-4 (Cover illus. note)
Benzamidine
Effectiveness of Sepharose-bound trypsin versus liquid-phase trypsin plus benzamidine for activation of inactive renin in human plasma (Morganti et al). 1987;109:13-8
Beta blockers
β-Adrenergic blockade: augmentation of neutrophil-mediated inflammation (Weisdorf and Jacob). 1987;109:120-6
Beta blockers and the neutrophil (Tannous). 1987;109:109-10 (Editorial)
Blastomycosis
Blastomycosis—then and now (Sarosi and Davies). 1987;109:731-2 (Historical perspective)
Bleeding time
Platelet membrane vesicles reduced microvascular bleeding times in thrombocytopenic rabbits (McGill et al). 1987;109: 127-33
Blood
Lithium and boron in human blood (Clarke et al). 1987;109: 155-8
The phenomenon of leukergy: induction and detection of leukocyte aggregation in whole human blood (Berliner et al). 1987;109:575-82
Putative role for lithium in human hematopoiesis (Barr et al). 1987;109:159-63
Blood cell; *see specific cell*
Bone lesion
Development and reversibility of aluminum-induced bone lesion in the rat (Ott et al). 1987;109:40-7
Bone marrow
Biotransformation of primaquine in vitro with human K562 and bone marrow cells (Frischer et al). 1987;109:414-21
Long-term marrow cultures from mice with busulfan-induced chronic latent aplasia (Halka et al). 1987;109:698-705
Book reviews
Book reviews. 1987;109:518
Boron
Lithium and boron in human blood (Clarke et al). 1987;109: 155-8
Breast carcinoma
Assessment of tamoxifen as adjuvant therapy in stage II breast cancer: a long-term follow-up (Marshall et al). 1987;109: 300-7
Estrogens regulate production of specific growth factors in hormone-dependent human breast cancer (Lippman et al). 1987;109:230-5
Festschrift honoring Olof H. Pearson (Douglas and Arafah). 1987;109:229 (Editorial)
Inhibition of aromatase as treatment of breast carcinoma in postmenopausal women (Santen et al). 1987;109:278-89
Laboratory models of breast cancer to aid the elucidation of antiestrogen action (Jordan). 1987;109:267-77
Modulation of human tumor antigen expression (Greiner et al). 1987;109:244-61
Selective induction of hormone-dependent mammary adenocarcinoma in the rat (Huggins). 1987;109:262-6
Tamoxifen therapy of metastatic breast cancer (Manni). 1987;109:290-9
Use of cells cultured from human mammary carcinomas for studies of malignant progression and chemotherapeutic drug sensitivity (Smith and Hackett). 1987;109:236-43
Breath test
Use of the triolein breath test in alcoholics with liver damage (Korsten et al). 1987;109:62-6

Busulfan
Long-term marrow cultures from mice with busulfan-induced chronic latent aplasia (Halka et al). 1987;109:698-705

C

Calcium
Effects of a dihydropyridine calcium antagonist and agonist on human basophil histamine release (Busse et al). 1987;109:422-8
Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33
Calcium agonist
Effects of a dihydropyridine calcium antagonist and agonist on human basophil histamine release (Busse et al). 1987;109:422-8
Calcium antagonist
Effects of a dihydropyridine calcium antagonist and agonist on human basophil histamine release (Busse et al). 1987;109:422-8
Carbon tetrachloride
Effects of copper deficiency on carbon tetrachloride–induced lipid peroxidation (Lawrence and Jenkinson). 1987;109:134-40
Carcinoma; *see also* **Breast carcinoma**
Modulation of human tumor antigen expression (Greiner et al). 1987;109:244-61
Cardiac myocyte
Actin synthesis in cultured cardiac myocytes: comparative effects of doxorubicin, dactinomycin, and plicamycin (Lewis and Gonzalez). 1987;109:67-74
Catecholamines
Dopamine sulfoconjugate: a catecholamine Gordian knot (Anton). 1987;109:523-5 (Editorial)
Human liver and conjugation of catecholamines (Tyce et al). 1987;109:532-7
Cell cycle
Humoral regulation of human leukemic progenitor cell cycle: the case for turning off the cell cycle (Park). 1987;109:571-4
Chemotaxis
Role of chemotactic factor inactivator in modulating alveolar macrophage–derived neutrophil chemotactic activity (Robbins et al). 1987;109:164-70
Chemotherapy; *see also specific agent*
Use of cells cultured from human mammary carcinomas for studies of malignant progression and chemotherapeutic drug sensitivity (Smith and Hackett). 1987;109:236-43
1,3-*bis*(2-Chloroethyl)-1-nitrosourea
Consequences of erythrocytic glutathione reductase deficiency (Frischer and Ahmad). 1987;109:583-8
Cholesterol
Association of cholesterol concentrations in low-density lipoprotein, high-density lipoprotein, and high-density lipoprotein subfractions, and of apolipoproteins AI and AII, with coronary stenosis and left ventricular function (Kempen et al). 1987;109:19-26
Chronic lymphocytic leukemia
Cimetidine modulates natural killer cell function of patients with chronic lymphocytic leukemia (Allen et al). 1987;109:396-401
Chronic obstructive pulmonary disease
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16
Cimetidine
Cimetidine modulates natural killer cell function of patients with chronic lymphocytic leukemia (Allen et al). 1987;109:396-401
Cirrhosis
Arteriovenous shunting in experimental liver cirrhosis in rats (Leehey et al). 1987;109:687-91
Clover
Karl Paul Link and the hemorrhagic agent in spoiled sweet clover (Schilling). 1987;109:617-8 (Cover illus. note)
Coagulation
Effects of two low-dose oral contraceptives on circulating components of the coagulation and fibrinolytic systems (Gevers Leuven et al). 1987;109:631-6
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52
Cobalamin
Atypical cobalamin deficiency: subtle biochemical evidence of deficiency is commonly demonstrable in patients without megaloblastic anemia and is often associated with protein-bound cobalamin malabsorption (Carmel et al). 1987;109:454-63
Collagen
Binding of human von Willebrand factor to collagen and to collagen-stimulated platelets (Pietu et al). 1987;109:637-46
Contraception
Effects of two low-dose oral contraceptives on circulating components of the coagulation and fibrinolytic systems (Gevers Leuven et al). 1987;109:631-6
Low-dose oral contraception and thrombosis (Gordon). 1987;109:621-2 (Editorial)
Copper
Effects of copper deficiency on carbon tetrachloride–induced lipid peroxidation (Lawrence and Jenkinson). 1987;109:134-40
Treatment of Wilson's disease with zinc. III. Prevention of reaccumulation of hepatic copper (Brewer et al). 1987;109:526-31
Zinc-copper interaction provides a novel and apparently effective alternative therapy for Wilson's disease (Sandstead). 1987;109:521-2 (Editorial)
Coronary stenosis
Association of cholesterol concentrations in low-density lipoprotein, high-density lipoprotein, and high-density lipoprotein subfractions, and of apolipoproteins AI and AII, with coronary stenosis and left ventricular function (Kempen et al). 1987;109:19-26
Correction
Recognition of deficiency of vitamin B_{12} using measurement of serum concentration (Cooper et al) (1986;107:447-52). 1987;109:183
Correspondence
Activation of contact phase of blood coagulation can be induced by the sclerosing agent polidocanol: possible additional mechanism of adverse reaction during sclerotherapy (Cacciola et al) (Letter); (Hammerschmidt) (Letter reply). 1987;109:225-6
Wither we goest? (Rowley) (Letter); (Schiff) (Letter reply). 1987;109:517
Corticosterone
Corticosterone methyloxidase II activity during hemodialysis (Zager et al). 1987;109:178-83
Cover illustrations
Cover illustration notes. 1987;109:105-6, 227-8, 373-4, 519-20, 617-8, 733-4
Cultures
Experimental hypersensitivity pneumonitis: transfer with cultured cells (Schuyler et al). 1987;109:623-30
Long-term marrow cultures from mice with busulfan-induced chronic latent aplasia (Halka et al). 1987;109:698-705
Cyclic 3',5'-guanosine monophosphate
Relationship between atrial natriuretic polypeptide and cyclic 3',5'-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10
Cyst
Triiodothyronine-induced cyst formation in metanephric organ culture: the role of increased Na-K-adenosine triphosphatase activity (Avner et al). 1987;109:441-53
Cytotoxicity
Enhancement of macrophage and monocyte cytotoxicity by the

surface active material of lung lining fluid (Baughman et al). 1987;109:692-7

D

Dactinomycin
Actin synthesis in cultured cardiac myocytes: comparative effects of doxorubicin, dactinomycin, and plicamycin (Lewis and Gonzalez). 1987;109:67-74

Deoxyribonucleic acid
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6

Diabetes mellitus
Increased thromboxane B_2 excretion in diabetes mellitus (Katayama et al). 1987;109:711-7
Platelet survival in rats with spontaneous diabetes mellitus (Winocour et al). 1987;109:464-8

Dialysis
Antithrombin III loss in patients with nephrotic syndrome or receiving continuous ambulatory peritoneal dialysis. Evidence of inactive antithrombin III in urine of patients with nephrotic syndrome (De Stefano et al). 1987;109:550-5
Corticosterone methyloxidase II activity during hemodialysis (Zager et al). 1987;109:178-83

Diamide
Consequences of erythrocytic glutathione reductase deficiency (Frischer and Ahmad). 1987;109:583-8

Dicumarol
Karl Paul Link and the hemorrhagic agent in spoiled sweet clover (Schilling). 1987;109:617-8 (Cover illus. note)

Diet
Effect of restricting a balanced diet on rat intestinal disaccharidase activity and intestinal architecture (Zarling and Mobarhan). 1987;109:556-9

Dihydropyridine
Effects of a dihydropyridine calcium antagonist and agonist on human basophil histamine release (Busse et al). 1987;109:422-8

Disaccharidase
Effect of restricting a balanced diet on rat intestinal disaccharidase activity and intestinal architecture (Zarling and Mobarhan). 1987;109:556-9

Disseminated intravascular coagulation
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52

DNA
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6

Dopamine
Dopamine sulfoconjugate: a catecholamine Gordian knot (Anton). 1987;109:523-5 (Editorial)
Human liver and conjugation of catecholamines (Tyce et al). 1987;109:532-7

Doxorubicin
Actin synthesis in cultured cardiac myocytes: comparative effects of doxorubicin, dactinomycin, and plicamycin (Lewis and Gonzalez). 1987;109:67-74

Drug resistance
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6

Drug sensitivity
Use of cells cultured from human mammary carcinomas for studies of malignant progression and chemotherapeutic drug sensitivity (Smith and Hackett). 1987;109:236-43

E

Editorials
Beta blockers and the neutrophil (Tannous). 1987;109:109-10
Can platelet fragments induce hemostasis? (Zucker). 1987;109:111
Comes a pause in the day's occupation (Daniel). 1987;109:107-8
Dopamine sulfoconjugate: a catecholamine Gordian knot (Anton). 1987;109:523-5
Festschrift honoring Olof H. Pearson (Douglas and Arafah). 1987;109:229
Hemodynamic effects of sodium in uremia (Van Stone). 1987;109:6-7
In host defense, leukocytes that are counted may not count (Martin). 1987;109:378-9
Low-dose oral contraception and thrombosis (Gordon). 1987;109:621-2
Models and mechanisms in pulmonary immunity (Fink). 1987;109:619-20
Peer reviewers—our critics, our friends and colleagues (Daniel). 1987;109:1-5
Progressive renal disease: is the slippery slope species specific? (Hostetter). 1987;109:375-7
Zinc-copper interaction provides a novel and apparently effective alternative therapy for Wilson's disease (Sandstead). 1987;109:521-2

Elastin
Increased synthesis of elastin in amiodarone-induced pulmonary fibrosis (Cantor et al). 1987;109:480-5

Eli Lilly Award winners
Comes a pause in the day's occupation (Daniel). 1987;109:107-8 (Editorial)

Endocarditis
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52

Endocrine gland
Endocrine complications after radiotherapy for tumors of the head and neck (Samaan et al). 1987;109:364-72

Endothelial cell
Anti-endothelial cell antibodies: detection and characterization using a cellular enzyme-linked immunosorbent assay (Hashemi et al). 1987;109:434-40
Secretion of tissue-type plasminogen activator and plasminogen activator inhibitor by cultured human endothelial cells: modulation by thrombin, endotoxin, and histamine (Hanss and Collen). 1987;109:97-104

Endotoxin
Differential elaboration of prostaglandin E_2 by cells of the hemopoietic microenvironment in response to endotoxin (DeGowin et al). 1987;109:679-86
Secretion of tissue-type plasminogen activator and plasminogen activator inhibitor by cultured human endothelial cells: modulation by thrombin, endotoxin, and histamine (Hanss and Collen). 1987;109:97-104

Enzyme immunoassay
New enzyme immunoassay of fibrin-fibrinogen degradation products in plasma using a monoclonal antibody (Koopman et al). 1987;109:75-84

Epinephrine
Human liver and conjugation of catecholamines (Tyce et al). 1987;109:532-7

Erratum
Recognition of deficiency of vitamin B_{12} using measurement of serum concentration (Cooper et al) (1986;107:447-52). 1987;109:183

Erythrocyte
Consequences of erythrocytic glutathione reductase deficiency (Frischer and Ahmad). 1987;109:583-8
Neutrophil-induced K^+ leak in human red cells: a potential mechanism for infection-mediated hemolysis (Claster et al). 1987;109:201-10

Erythropoietin
Erythropoietin titers in anemic, nonuremic patients (Erslev et al). 1987;109:429-33

Esophageal manometry
Relationship of a radionuclide liquid bolus transport and esophageal manometry (Richter et al). 1987;109:217-24
Estrogens
Estrogens regulate production of specific growth factors in hormone-dependent human breast cancer (Lippman et al). 1987;109:230-5
Laboratory models of breast cancer to aid the elucidation of antiestrogen action (Jordan). 1987;109:267-77
***N*-Ethylmaleimide**
Effects of aldosterone on rat collecting tubule *N*-ethylmaleimide–sensitive adenosine triphosphatase (Mujais). 1987;109:34-9

F

Factor VII
Augmented Hageman factor and prolactin titers, enhanced cold activation of factor VII, and spontaneous shortening of prothrombin time in survivors of myocardial infarction (Gordon et al). 1987;109:409-13
Fatty acids
Protein origin of the volatile fatty acids isobutyrate and isovalerate in human stool (Zarling and Ruchim). 1987;109:566-70
Fibrinogen
New enzyme immunoassay of fibrin-fibrinogen degradation products in plasma using a monoclonal antibody (Koopman et al). 1987;109:75-84
Fibrinolysis
Effects of two low-dose oral contraceptives on circulating components of the coagulation and fibrinolytic systems (Gevers Leuven et al). 1987;109:631-6
Evaluation of fibrinolytic capacity by a combined assay syster for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Fibrosis
Increased synthesis of elastin in amiodarone-induced pulmonary fibrosis (Cantor et al). 1987;109:480-5
Filtration
Filterability of L-forms (Darwish et al). 1987;109:211-6
Forearm circulation
Effects of oral labetalol on forearm and hepatic circulations in normotensive humans (Sweeney et al). 1987;109:589-94

G

Gentamicin
Effect of parathyroid hormone activity on gentamicin nephrotoxicity (Elliott et al). 1987;109:48-54
Glomerulus
Ameliorative effects of dietary protein restriction in chronic aminonucleoside nephrosis (Diamond and Karnovsky). 1987;109:538-44
Antithrombotic activity of glomerular adenosine diphosphatase in the glomerular basement membrane of the rat kidney (Bakker et al). 1987;109:171-7
Glomerular function and morphology after renal mass reduction in dogs (Bourgoignie et al). 1987;109:380-8
Progressive renal disease: is the slippery slope species specific? (Hostetter) 1987;109:375-7 (Editorial)
Glutathione reductase
Consequences of erythrocytic glutathione reductase deficiency (Frischer and Ahmad). 1987;109:583-8
Glycoproteins
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
Growth
Comparison of assays for growth hormone using monoclonal or polyclonal antibodies for diagnosis of growth disorders (Levin et al). 1987;109:85-8
Estrogens regulate production of specific growth factors in hormone-dependent human breast cancer (Lippman et al). 1987;109:230-5
Growth hormone
Comparison of assays for growth hormone using monoclonal or polyclonal antibodies for diagnosis of growth disorders (Levin et al). 1987;109:85-8
Secretion of somatostatin and its physiologic function (Reichlin). 1987;109:320-6
Value of growth hormone dynamics and somatomedin C (insulin-like growth factor I) levels in predicting the long-term benefit after transsphenoidal surgery for acromegaly (Arafah et al). 1987;109:346-54
Guanosine monophosphate
Relationship between atrial natriuretic polypeptide and cyclic 3′,5′-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10

H

Hageman, John
John Hageman (1916-1968) (Ratnoff). 1987;109:519-20 (Cover illus. note)
Hageman factor
Augmented Hageman factor and prolactin titers, enhanced cold activation of factor VII, and spontaneous shortening of prothrombin time in survivors of myocardial infarction (Gordon et al). 1987;109:409-13
Hamilton, Alice
Alice Hamilton, M.D. (1869-1970) (Warren). 1987;109:733-4 (Cover illus. note)
Head tumors
Endocrine complications after radiotherapy for tumors of the head and neck (Samaan et al). 1987;109:364-72
Hematopoiesis
Differential elaboration of prostaglandin E_2 by cells of the hemopoietic microenvironment in response to endotoxin (DeGowin et al). 1987;109:679-86
Putative role for lithium in human hematopoiesis (Barr et al). 1987;109:159-63
Hemodialysis
Corticosterone methyloxidase II activity during hemodialysis (Zager et al). 1987;109:178-83
Hemolysis
Neutrophil-induced K^+ leak in human red cells: a potential mechanism for infection-mediated hemolysis (Claster et al). 1987;109:201-10
Hemophilia
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
Hemopoiesis; *see* **Hematopoiesis**
Hemostasis
Can platelet fragments induce hemostasis? (Zucker) 1987;109:111 (Editorial)
Heparin
Antiheparin antibodies: their preparation and use in a heparin immunoassay (Gitel et al). 1987;109:672-8
Catabolism and distribution of functionally heterogeneous human antithrombin III (Marciniak). 1987;109:89-96
Hepatic circulation
Effect of chronic and progressive hepatic outflow blockade on renal function in rats (Blanchart et al). 1987;109:718-23
Effects of oral labetalol on forearm and hepatic circulations in normotensive humans (Sweeney et al). 1987;109:608-16
Hepatic triglyceride lipase
Anti-Xa activity of human hepatic triglyceride lipase (Gray et al). 1987;109:653-9
Hepatitis
Serial determinations of the amino-terminal peptide of type III procollagen in severe chronic active hepatitis (McCullough et al). 1987;109:55-61

High molecular weight kininogen
Comperison of human high molecular weight kininogen digestion by plasma kallikrein and by plasmin: a revised method of purification of high molecular weight kininogen (Kleniewski and Donaldson). 1987;109:469-79
Histamine
Effects of a dihydropyridine calcium antagonist and agonist on human basophil histamine release (Busse et al). 1987;109: 422-8
Secretion of tissue-type plasminogen activator and plasminogen activator inhibitor by cultured human endothelial cells: modulation by thrombin, endotoxin, and histamine (Hanss and Collen). 1987;109:97-104
Historical perspective
Blastomycosis—then and now (Sarosi and Davies). 1987;109: 731-2
Hormone-dependent carcinoma
Selective induction of hormone-dependent mammary adenocarcinoma in the rat (Huggins). 1987;109:262-6
HTLV type III
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
Human antithrombin III
Catabolism and distribution of functionally heterogeneous human antithrombin III (Marciniak). 1987;109:96
Human T-lymphotropic virus
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
Hypersensitivity pneumonitis
Experimental hypersensitivity pneumonitis: transfer with cultured cells (Schuyler et al). 1987;109:623-30
Hyponatremia
Effect of hyponatremia on response to volume depletion in uremic dogs (Daugirdas and Razma). 1987;109:8-12

I

Iloprost
Comparison of equimolar concentrations of iloprost, prostacyclin, and prostaglandin E_1 on human platelet function (Fisher et al). 1987;109:184-90
Immunity
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
Models and mechanisms in pulmonary immunity (Fink). 1987;109:619-20 (Editorial)
Immunoassay
Antiheparin antibodies: their preparation and use in a heparin immunoassay (Gitel et al). 1987;109:672-8
New enzyme immunoassay of fibrin-fibrinogen degradation products in plasma using a monoclonal antibody (Koopman et al). 1987;109:75-84
Immunodeficiency
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
Immunoglobulin E
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6
Immunoglobulin G
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6
Infection
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus (human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9
In host defense, leukocytes that are counted may not count (Martin). 1987;109:378-9 (Editorial)
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52
Neutrophil-induced K^+ leak in human red cells: a potential mechanism for infection-mediated hemolysis (Claster et al). 1987;109:201-10
Inflammation
β-Adrenergic blockade: augmentation of neutrophil-mediated inflammation (Weisdorf and Jacob). 1987;109:120-6
Insulin
Serum somatomedin binding proteins: physiologic significance and interference in radioligand assay (Daughaday et al). 1987;109:355-63
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6
Insulin-like growth factor
Value of growth hormone dynamics and somatomedin C (insulin-like growth factor I) levels in predicting the long-term benefit after transsphenoidal surgery for acromegaly (Arafah et al). 1987;109:346-54
Interleukins
Effect of protein depletion and short-term parenteral refeeding on the host response to interleukin 1 administration (Drabik et al). 1987;109:509-16
Intestine
Effect of restricting a balanced diet on rat intestinal disaccharidase activity and intestinal architecture (Zarling and Mobarhan). 1987;109:556-9
Intravascular coagulation
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52
Isobutyrate
Protein origin of the volatile fatty acids isobutyrate and isovalerate in human stool (Zarling and Ruchim). 1987;109:566-70
Isovalerate
Protein origin of the volatile fatty acids isobutyrate and isovalerate in human stool (Zarling and Ruchim). 1987;109: 566-70

K

K562
Biotransformation of primaquine in vitro with human K562 and bone marrow cells (Frischer et al). 1987;109:414-21
Kallikrein
Comparison of human high molecular weight kininogen digestion by plasma kallikrein and by plasmin: a revised method of purification of high molecular weight kininogen (Kleniewski and Donaldson). 1987;109:469-79
Kidney; *see also* **Glomerulus**
Antithrombotic activity of glomerular adenosine diphosphatase in the glomerular basement membrane of the rat kidney (Bakker et al). 1987;109:171-7
Effect of chronic and progressive hepatic outflow blockade on renal function in rats (Blanchart et al). 1987;109:718-23
Erythropoietin titers in anemic, nonuremic patients (Erslev et al). 1987;109:429-33
Glomerular function and morphology after renal mass reduction in dogs (Bourgoignie et al). 1987;109:380-8
Mild potassium depletion provokes renal sodium retention (Krishna et al). 1987;109:724-30
Progressive renal disease: is the slippery slope species specific? (Hostetter) 1987;109:375-7 (Editorial)

Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33

Killer cell
Cimetidine modulates natural killer cell function of patients with chronic lymphocytic leukemia (Allen et al). 1987;109:396-401

Kininogen
Comparison of human high molecular weight kininogen digestion by plasma kallikrein and by plasmin: a revised method of purification of high molecular weight kininogen (Kleniewski and Donaldson). 1987;109:469-79

L

Labetalol
Effects of oral labetalol on forearm and hepatic circulations in normotensive humans (Sweeney et al). 1987;109:589-94

Left ventricle
Association of cholesterol concentrations in low-density lipoprotein, high-density lipoprotein, and high-density lipoprotein subfractions, and of apolipoproteins AI and AII, with coronary stenosis and left ventricular function (Kempen et al). 1987;109:19-26

Letters
Activation of contact phase of blood coagulation can be induced by the sclerosing agent polidocanol: possible additional mechanism of adverse reaction during sclerotherapy (Cacciola et al) (Letter); (Hammerschmidt) (Letter reply). 1987;109:225-6
Wither we goest? (Rowley) (Letter); (Schiff) (Letter reply). 1987;109:517

Leukemia
Cimetidine modulates natural killer cell function of patients with chronic lymphocytic leukemia (Allen et al). 1987;109:396-401
Humoral regulation of human leukemic progenitor cell cycle: the case for turning off the cell cycle (Park). 1987;109:571-4

Leukergy
The phenomenon of leukergy: induction and detection of leukocyte aggregation in whole human blood (Berliner et al). 1987;109:575-82

Leukocytes
In host defense, leukocytes that are counted may not count (Martin). 1987;109:378-9 (Editorial)
The phenomenon of leukergy: induction and detection of leukocyte aggregation in whole human blood (Berliner et al). 1987;109:575-82

L-forms
Filterability of L-forms (Darwish et al). 1987;109:211-6

Link, Karl Paul
Karl Paul Link and the hemorrhagic agent in spoiled sweet clover (Schilling). 1987;109:617-8 (Cover illus. note)

Lipase
Anti-Xa activity of human hepatic triglyceride lipase (Gray et al). 1987;109:653-9

Lipids
Clearance of instilled surfactant lipid from the lungs of unanesthetized sheep: lipids are differentially transported by nonlymphatic pathways (Davis et al). 1987;109:191-200
Effects of copper deficiency on carbon tetrachloride–induced lipid peroxidation (Lawrence and Jenkinson). 1987;109:134-40

Lipoproteins
Association of cholesterol concentrations in low-density lipoprotein, high-density lipoprotein, and high-density lipoprotein subfractions, and of apolipoproteins AI and AII, with coronary stenosis and left ventricular function (Kempen et al). 1987;109:19-26

Lithium
Lithium and boron in human blood (Clarke et al). 1987;109:155-8
Putative role for lithium in human hematopoiesis (Barr et al). 1987;109:159-63

Liver
Arteriovenous shunting in experimental liver cirrhosis in rats (Leehey et al). 1987;109:687-91
Effects of oral labetalol on forearm and hepatic circulations in normotensive humans (Sweeney et al). 1987;109:589-94
Human liver and conjugation of catecholamines (Tyce et al). 1987;109:532-7
Treatment of Wilson's disease with zinc. III. Prevention of reaccumulation of hepatic copper (Brewer et al). 1987;109:526-31
Use of the triolein breath test in alcoholics with liver damage (Korsten et al). 1987;109:62-6

Lung
Clearance of instilled surfactant lipid from the lungs of unanesthetized sheep: lipids are differentially transported by nonlymphatic pathways (Davis et al). 1987;109:191-200
Enhancement of macrophage and monocyte cytotoxicity by the surface active material of lung lining fluid (Baughman et al). 1987;109:692-7
Increased synthesis of elastin in amiodarone-induced pulmonary fibrosis (Cantor et al). 1987;109:480-5
Models and mechanisms in pulmonary immunity (Fink). 1987;109:619-20 (Editorial)
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16

Lymphocytic leukemia
Cimetidine modulates natural killer cell function of patients with chronic lymphocytic leukemia (Allen et al). 1987;109:396-401

M

Macrophage
Enhancement of macrophage and monocyte cytotoxicity by the surface active material of lung lining fluid (Baughman et al). 1987;109:692-7

Magnesium
Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33

Malabsorption
Atypical cobalamin deficiency (Carmel et al). 1987;109:454-63

Malnutrition
Effect of restricting a balanced diet on rat intestinal disaccharidase activity and intestinal architecture (Zarling and Mobarhan). 1987;109:556-9

Mammary carcinoma; *see* **Breast carcinoma**

Manometry
Relationship of a radionuclide liquid bolus transport and esophageal manometry (Richter et al). 1987;109:217-24

Marrow
Biotransformation of primaquine in vitro with human K562 and bone marrow cells (Frischer et al). 1987;109:414-21
Long-term marrow cultures from mice with busulfan-induced chronic latent aplasia (Halka et al). 1987;109:698-705

Meglumine diatrizoate
Contraction of isolated canine renal arteries induced by the radiocontrast medium sodium diatrizoate and meglumine diatrizoate (Bentley et al). 1987;109:595-600

Menopause
Inhibition of aromatase as treatment of breast carcinoma in postmenopausal women (Santen et al). 1987;109:278-89

Metanephric organ culture
Triiodothyronine-induced cyst formation in metanephric organ culture: the role of increased Na-K-adenosine triphosphatase activity (Avner et al). 1987;109:441-53

Metastasis; *see also* **Breast carcinoma**
Assessment of tamoxifen as adjuvant therapy in stage II breast cancer: a long-term follow-up (Marshall et al). 1987;109:300-7
Tamoxifen therapy of metastatic breast cancer (Manni). 1987;109:290-9

Microassay
Evaluation of a microassay for human plasma prekallikrein (De La Cadena et al). 1987;109:601-7
Microvascular bleeding
Platelet membrane vesicles reduced microvascular bleeding times in thrombocytopenic rabbits (McGill et al). 1987;109:127-33
Midwest Trainee Award winners
Comes a pause in the day's occupation (Daniel). 1987;109:107-8 (Editorial)
Monoclonal antibody
Comparison of assays for growth hormone using monoclonal or polyclonal antibodies for diagnosis of growth disorders (Levin et al). 1987;109:85-8
Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
New enzyme immunoassay of fibrin-fibrinogen degradation products in plasma using a monoclonal antibody (Koopman et al). 1987;109:75-84
Monocyte
Enhancement of macrophage and monocyte cytotoxicity by the surface active material of lung lining fluid (Baughman et al). 1987;109:692-7
Myelocytic leukemia
Humoral regulation of human leukemic progenitor cell cycle: the case for turning off the cell cycle (Park). 1987;109:571-4
Myocardial infarction
Augmented Hageman factor and prolactin titers, enhanced cold activation of factor VII, and spontaneous shortening of prothrombin time in survivors of myocardial infarction (Gordon et al). 1987;109:409-13
Myocyte
Actin synthesis in cultured cardiac myocytes: comparative effects of doxorubicin, dactinomycin, and plicamycin (Lewis and Gonzalez). 1987;109:67-74

N

Natriuretic factor
Biologic mechanisms of atrial natriuretic factor (Trippodo et al). 1987;109:112-9
Relationship between atrial natriuretic polypeptide and cyclic 3′,5′-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10
Natural killer cell
Cimetidine modulates natural killer cell function of patients with chronic lymphocytic leukemia (Allen et al). 1987;109:396-401
Neck tumor
Endocrine complications after radiotherapy for tumors of the head and neck (Samaan et al). 1987;109:364-72
Nephrosis
Ameliorative effects of dietary protein restriction in chronic aminonucleoside nephrosis (Diamond and Karnovsky). 1987;109:538-44
Nephrotic syndrome
Antithrombin III loss in patients with nephrotic syndrome or receiving continuous ambulatory peritoneal dialysis. Evidence of inactive antithrombin III in urine of patients with nephrotic syndrome (De Stefano et al). 1987;109:550-5
Nephrotoxicity; *see also* **Glomerulus**
Effect of parathyroid hormone activity on gentamicin nephrotoxicity (Elliott et al). 1987;109:48-54
Neurohypophysis
The neurohypophysis: recent developments (Robinson). 1987;109:336-45
Neuroradiology
Advances in neuroradiologic imaging of the pituitary gland: changing concepts (Kaufman et al). 1987;109:308-19
Neurotransmitters
Dopamine sulfoconjugate: a catecholamine Gordian knot (Anton). 1987;109:523-5 (Editorial)
Human liver and conjugation of catecholamines (Tyce et al). 1987;109:532-7
Neutrophil
β-Adrenergic blockade: augmentation of neutrophil-mediated inflammation (Weisdorf and Jacob). 1987;109:120-6
Beta blockers and the neutrophil (Tannous). 1987;109:109-10 (Editorial)
Neutrophil localization in acute and chronic experimental abscesses (Bamberger et al). 1987;109:389-95
Neutrophil-induced K^+ leak in human red cells: a potential mechanism for infection-mediated hemolysis (Claster et al). 1987;109:201-10
Putative role for lithium in human hematopoiesis (Barr et al). 1987;109:159-63
Role of chemotactic factor inactivator in modulating alveolar macrophage–derived neutrophil chemotactic activity (Robbins et al). 1987;109:164-70
Nonlymphocytic leukemia
Humoral regulation of human leukemic progenitor cell cycle: the case for turning off the cell cycle (Park). 1987;109:571-4
Norepinephrine
Human liver and conjugation of catecholamines (Tyce et al). 1987;109:532-7

O

Obstructive pulmonary disease
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16
Oral contraception
Effects of two low-dose oral contraceptives on circulating components of the coagulation and fibrinolytic systems (Gevers Leuven et al). 1987;109:631-6
Low-dose oral contraception and thrombosis (Gordon). 1987;109:621-2 (Editorial)
Oxygen extraction
Increases in oxygen extraction during rapidly fatal septic shock in rats (Rackow et al). 1987;109:660-4
Oxytocin
The neurohypophysis: recent developments (Robinson). 1987;109:336-45

P

Parathyroid hormone
Effect of parathyroid hormone activity on gentamicin nephrotoxicity (Elliott et al). 1987;109:48-54
Parenteral refeeding
Effect of protein depletion and short-term parenteral refeeding on the host response to interleukin 1 administration (Drabik et al). 1987;109:509-16
Pearson, Olof H.
Festschrift honoring Olof H. Pearson (Douglas and Arafah). 1987;109:229 (Editorial)
Peer review
Peer reviewers—our critics, our friends and colleagues (Daniel). 1987;109:1-5 (Editorial)
Peptides
Biologic mechanisms of atrial natriuretic factor (Trippodo et al). 1987;109:112-9
Relationship between atrial natriuretic polypeptide and cyclic 3′,5′-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10
Secretion of somatostatin and its physiologic function (Reichlin). 1987;109:320-6
Serial determinations of the amino-terminal peptide of type III

procollagen in severe chronic active hepatitis (McCullough et al). 1987;109:55-61

Peritoneal dialysis

Antithrombin III loss in patients with nephrotic syndrome or receiving continuous ambulatory peritoneal dialysis. Evidence of inactive antithrombin III in urine of patients with nephrotic syndrome (De Stefano et al). 1987;109:550-5

pH

Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33

Phosphorus

Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33

Phthalate ester

Assessment of the hydration state of sickle cells by phthalate ester density distribution (Kurantsin-Mills et al). 1987;109:486-94

Pituitary gland

Advances in neuroradiologic imaging of the pituitary gland: changing concepts (Kaufman et al). 1987;109:308-19

The neurohypophysis: recent developments (Robinson). 1987; 109:336-45

Plasma

Comparison of human high molecular weight kininogen digestion by plasma kallikrein and by plasmin: a revised method of purification of high molecular weight kininogen (Kleniewski and Donaldson). 1987;109:469-79

Effectiveness of Sepharose-bound trypsin versus liquid-phase trypsin plus benzamidine for activation of inactive renin in human plasma (Morganti et al). 1987;109:13-8

Evaluation of a microassay for human plasma prekallikrein (De La Cadena et al). 1987;109:601-7

New enzyme immunoassay of fibrin-fibrinogen degradation products in plasma using a monoclonal antibody (Koopman et al). 1987;109:75-84

Relationship between atrial natriuretic polypeptide and cyclic 3′,5′-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10

Plasmin

Comparison of human high molecular weight kininogen digestion by plasma kallikrein and by plasmin: a revised method of purification of high molecular weight kininogen (Kleniewski and Donaldson). 1987;109:469-79

Plasminogen activator

Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71

Secretion of tissue-type plasminogen activator and plasminogen activator inhibitor by cultured human endothelial cells: modulation by thrombin, endotoxin, and histamine (Hanss and Collen). 1987;109:97-104

Platelet

Asialo von Willebrand factor binding to and aggregation of platelets: effects of inhibitors of platelet metabolism and function (Williams et al). 1987;109:560-5

Binding of human von Willebrand factor to collagen and to collagen-stimulated platelets (Pietu et al). 1987;109:637-46

Can platelet fragments induce hemostasis? (Zucker) 1987;109:111 (Editorial)

Comparison of equimolar concentrations of iloprost, prostacyclin, and prostaglandin E_1 on human platelet function (Fisher et al). 1987;109:184-90

In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52

Interaction of long-term stored platelets with vascular subendothelium (Escolar et al). 1987;109:147-54

Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503

Platelet membrane vesicles reduced microvascular bleeding times in thrombocytopenic rabbits (McGill et al). 1987;109:127-33

Platelet survival in rats with spontaneous diabetes mellitus (Winocour et al). 1987;109:464-8

Plicamycin

Actin synthesis in cultured cardiac myocytes: comparative effects of doxorubicin, dactinomycin, and plicamycin (Lewis and Gonzalez). 1987;109:67-74

Pneumonitis

Experimental hypersensitivity pneumonitis: transfer with cultured cells (Schuyler et al). 1987;109:623-30

Polyclonal antibody

Comparison of assays for growth hormone using monoclonal or polyclonal antibodies for diagnosis of growth disorders (Levin et al). 1987;109:85-8

Polymorphonuclear leukocyte

In host defense, leukocytes that are counted may not count (Martin). 1987;109:378-9 (Editorial)

Polypeptide; *see also* **Peptides**

Relationship between atrial natriuretic polypeptide and cyclic 3′,5′-guanosine monophosphate in human plasma (Fujio et al). 1987;109:706-10

Posterior pituitary gland

The neurohypophysis: recent developments (Robinson). 1987; 109:336-45

Potassium

Mild potassium depletion provokes renal sodium retention (Krishna et al). 1987;109:724-30

Neutrophil-induced K^+ leak in human red cells: a potential mechanism for infection-mediated hemolysis (Claster et al). 1987; 109:201-10

Triiodothyronine-induced cyst formation in metanephric organ culture: the role of increased Na-K-adenosine triphosphatase activity (Avner et al). 1987;109:441-53

Prekallikrein

Evaluation of a microassay for human plasma prekallikrein (De La Cadena et al). 1987;109:601-7

Primaquine

Biotransformation of primaquine in vitro with human K562 and bone marrow cells (Frischer et al). 1987;109:414-21

Procollagen

Serial determinations of the amino-terminal peptide of type III procollagen in severe chronic active hepatitis (McCullough et al). 1987;109:55-61

Prolactin

Augmented Hageman factor and prolactin titers, enhanced cold activation of factor VII, and spontaneous shortening of prothrombin time in survivors of myocardial infarction (Gordon et al). 1987;109:409-13

Prostacyclin; *see also* **Prostaglandins**

Comparison of equimolar concentrations of iloprost, prostacyclin, and prostaglandin E_1 on human platelet function (Fisher et al). 1987;109:184-90

Prostaglandins

Comparison of equimolar concentrations of iloprost, prostacyclin, and prostaglandin E_1 on human platelet function (Fisher et al). 1987;109:184-90

Differential elaboration of prostaglandin E_2 by cells of the hemopoietic microenvironment in response to endotoxin (DeGowin et al). 1987;109:679-86

Effect of Sar^1-$Ileu^8$-angiotensin on renal prostaglandin E_2 biosynthesis and excretion (Katayama et al). 1987;109:504-8

Prostaglandin synthesis is independent of androgen levels in rat male genitalia (Klein and Stoff). 1987;109:402-8

Protein

Ameliorative effects of dietary protein restriction in chronic aminonucleoside nephrosis (Diamond and Karnovsky). 1987; 109:538-44

Atypical cobalamin deficiency: subtle biochemical evidence of de-

ficiency is commonly demonstrable in patients without megaloblastic anemia and is often associated with protein-bound cobalamin malabsorption (Carmel et al). 1987;109:454-63
Effect of protein depletion and short-term parenteral refeeding on the host response to interleukin 1 administration (Drabik et al). 1987;109:509-16
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
Protein origin of the volatile fatty acids isobutyrate and isovalerate in human stool (Zarling and Ruchim). 1987;109:566-70
Serum somatomedin binding proteins: physiologic significance and interference in radioligand assay (Daughaday et al). 1987;109:355-63

Proteinuria
Glomerular function and morphology after renal mass reduction in dogs (Bourgoignie et al). 1987;109:380-8

Proteolysis
Evaluation of a microassay for human plasma prekallikrein (De La Cadena et al). 1987;109:601-7

Prothrombin time
Augmented Hageman factor and prolactin titers, enhanced cold activation of factor VII, and spontaneous shortening of prothrombin time in survivors of myocardial infarction (Gordon et al). 1987;109:409-13

Pulmonary disease; *see also* **Lung**
Increased synthesis of elastin in amiodarone-induced pulmonary fibrosis (Cantor et al). 1987;109:480-5
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16

Pulmonary immunity
Models and mechanisms in pulmonary immunity (Fink). 1987;109:619-20 (Editorial)

Puromycin aminonucleoside
Ameliorative effects of dietary protein restriction in chronic aminonucleoside nephrosis (Diamond and Karnovsky). 1987;109:538-44

R

Radiography
Advances in neuroradiologic imaging of the pituitary gland: changing concepts (Kaufman et al). 1987;109:308-19

Radioligand assay
Serum somatomedin binding proteins: physiologic significance and interference in radioligand assay (Daughaday et al). 1987;109:355-63

Radionuclide
Relationship of a radionuclide liquid bolus transport and esophageal manometry (Richter et al). 1987;109:217-24

Radiotherapy
Endocrine complications after radiotherapy for tumors of the head and neck (Samaan et al). 1987;109:364-72

Recombinant DNA
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6

Renal artery
Contraction of isolated canine renal arteries induced by the radiocontrast medium sodium diatrizoate and meglumine diatrizoate (Bentley et al). 1987;109:595-600

Renal disease
Progressive renal disease: is the slippery slope species specific? (Hostetter) 1987;109:375-7 (Editorial)

Renal function; *see also* **Kidney**
Effect of chronic and progressive hepatic outflow blockade on renal function in rats (Blanchart et al). 1987;109:718-23
Mild potassium depletion provokes renal sodium retention (Krishna et al). 1987;109:724-30
Renal excretion of divalent ions in response to chronic acidosis: evidence that systemic pH is not the controlling variable (Lau et al). 1987;109:27-33

Renal mass reduction
Glomerular function and morphology after renal mass reduction in dogs (Bourgoignie et al). 1987;109:380-8

Renin
Effectiveness of Sepharose-bound trypsin versus liquid-phase trypsin plus benzamidine for activation of inactive renin in human plasma (Morganti et al). 1987;109:13-8

Research trainee award winners
Comes a pause in the day's occupation (Daniel). 1987;109:107-8 (Editorial)

Resistance
Specificity of immunoglobulin E and immunoglobulin G against human (recombinant DNA) insulin in human insulin allergy and resistance (Grammer et al). 1987;109:141-6

Respirations; *see also* **Lung**
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16

Reviewers
List of reviewers. 1987;109:2-5

S

Sappington, John
Dr. John Sappington (1776-1856) (Warren). 1987;109:105-6 (Cover illus. note)

Sar^1-Ileu^8-angiotensin
Effect of Sar^1-Ileu^8-angiotensin on renal prostaglandin E_2 biosynthesis and excretion (Katayama et al). 1987;109:504-8

Selective induction
Selective induction of hormone-dependent mammary adenocarcinoma in the rat (Huggins). 1987;109:262-6

Sepharose-bound trypsin
Effectiveness of Sepharose-bound trypsin versus liquid-phase trypsin plus benzamidine for activation of inactive renin in human plasma (Morganti et al). 1987;109:13-8

Septic shock
Increases in oxygen extraction during rapidly fatal septic shock in rats (Rackow et al). 1987;109:660-4

Serum
Serum somatomedin binding proteins: physiologic significance and interference in radioligand assay (Daughaday et al). 1987;109:355-63

Shock
Increases in oxygen extraction during rapidly fatal septic shock in rats (Rackow et al). 1987;109:660-4

Shunt
Arteriovenous shunting in experimental liver cirrhosis in rats (Leehey et al). 1987;109:687-91

Sickle cell
Assessment of the hydration state of sickle cells by phthalate ester density distribution (Kurantsin-Mills et al). 1987;109:486-94

Sleep
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16

Sodium
Effect of hyponatremia on response to volume depletion in uremic dogs (Daugirdas and Razma). 1987;109:8-12
Hemodynamic effects of sodium in uremia (Van Stone). 1987;109:6-7 (Editorial)
Mild potassium depletion provokes renal sodium retention (Krishna et al). 1987;109:724-30
Triiodothyronine-induced cyst formation in metanephric organ culture: the role of increased Na-K-adenosine triphosphatase activity (Avner et al). 1987;109:441-53

Sodium diatrizoate
Contraction of isolated canine renal arteries induced by the radiocontrast medium sodium diatrizoate and meglumine diatrizoate (Bentley et al). 1987;109:595-600

Somatomedin
Serum somatomedin binding proteins: physiologic significance and interference in radioligand assay (Daughaday et al). 1987; 109:355-63
Value of growth hormone dynamics and somatomedin C (insulin-like growth factor I) levels in predicting the long-term benefit after transsphenoidal surgery for acromegaly (Arafah et al). 1987;109:346-54
Somatostatin
Comparison of assays for growth hormone using monoclonal or polyclonal antibodies for diagnosis of growth disorders (Levin et al). 1987;109:85-8
Secretion of somatostatin and its physiologic function (Reichlin). 1987;109:320-6
Value of growth hormone dynamics and somatomedin C (insulin-like growth factor I) levels in predicting the long-term benefit after transsphenoidal surgery for acromegaly (Arafah et al). 1987;109:346-54
Streptozocin
Platelet survival in rats with spontaneous diabetes mellitus (Winocour et al). 1987;109:464-8
Subacute bacterial endocarditis
In vitro correlation of platelet aggregation with occurrence of disseminated intravascular coagulation and subacute bacterial endocarditis (Kessler et al). 1987;109:647-52
Subendothelium
Interaction of long-term stored platelets with vascular subendothelium (Escolar et al). 1987;109:147-54
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
Surfactant
Clearance of instilled surfactant lipid from the lungs of unanesthetized sheep: lipids are differentially transported by nonlymphatic pathways (Davis et al). 1987;109:191-200

T

Tamoxifen
Assessment of tamoxifen as adjuvant therapy in stage II breast cancer: a long-term follow-up (Marshall et al). 1987;109:300-7
Tamoxifen therapy of metastatic breast cancer (Manni). 1987; 109:290-9
Thrombin
Secretion of tissue-type plasminogen activator and plasminogen activator inhibitor by cultured human endothelial cells: modulation by thrombin, endotoxin, and histamine (Hanss and Collen). 1987;109:97-104
Thrombocytopenia
Can platelet fragments induce hemostasis? (Zucker) 1987;109:111 (Editorial)
Platelet membrane vesicles reduced microvascular bleeding times in thrombocytopenic rabbits (McGill et al). 1987;109:127-33
Thrombosis
Antithrombotic activity of glomerular adenosine diphosphatase in the glomerular basement membrane of the rat kidney (Bakker et al). 1987;109:171-7
Low-dose oral contraception and thrombosis (Gordon). 1987; 109:621-2 (Editorial)
Thromboxane
Increased thromboxane B_2 excretion in diabetes mellitus (Katayama et al). 1987;109:711-7
Thyrotropin
Thyrotropin-releasing hormone and thyrotropin secretion (Utiger). 1987;109:327-35
Thyrotropin-releasing hormone
Thyrotropin-releasing hormone and thyrotropin secretion (Utiger). 1987;109:327-35
Tissue-type plasminogen activator
Evaluation of fibrinolytic capacity by a combined assay system for tissue-type plasminogen activator antigen and function using monoclonal anti-tissue-type plasminogen activator antibodies (Wojta et al). 1987;109:665-71
Secretion of tissue-type plasminogen activator and plasminogen activator inhibitor by cultured human endothelial cells: modulation by thrombin, endotoxin, and histamine (Hanss and Collen). 1987;109:97-104
Transsphenoidal surgery
Value of growth hormone dynamics and somatomedin C (insulin-like growth factor I) levels in predicting the long-term benefit after transsphenoidal surgery for acromegaly (Arafah et al). 1987;109:346-54
Triglyceride lipase
Anti-Xa activity of human hepatic triglyceride lipase (Gray et al). 1987;109:653-9
Triiodothyronine
Triiodothyronine-induced cyst formation in metanephric organ culture: the role of increased Na-K-adenosine triphosphatase activity (Avner et al). 1987;109:441-53
Triolein breath test
Use of the triolein breath test in alcoholics with liver damage (Korsten et al). 1987;109:62-6
Trypsin
Effectiveness of Sepharose-bound trypsin versus liquid-phase trypsin plus benzamidine for activation of inactive renin in human plasma (Morganti et al). 1987;109:13-8
Tumor
Endocrine complications after radiotherapy for tumors of the head and neck (Samaan et al). 1987;109:364-72
Modulation of human tumor antigen expression (Greiner et al). 1987;109:244-61

U

Uremia
Effect of hyponatremia on response to volume depletion in uremic dogs (Daugirdas and Razma). 1987;109:8-12
Hemodynamic effects of sodium in uremia (Van Stone). 1987;109:6-7 (Editorial)
Urine; *see also* **Kidney**
Antithrombin III loss in patients with nephrotic syndrome or receiving continuous ambulatory peritoneal dialysis. Evidence of inactive antithrombin III in urine of patients with nephrotic syndrome (De Stefano et al). 1987;109:550-5

V

Vascular subendothelium
Interaction of long-term stored platelets with vascular subendothelium (Escolar et al). 1987;109:147-54
Monoclonal antibodies to the glycoprotein IIb-IIIa epitopes involved in adhesive protein binding: effects on platelet spreading and ultrastructure on human arterial subendothelium (Lawrence and Gralnick). 1987;109:495-503
Vasopressin
The neurohypophysis: recent developments (Robinson). 1987;109:336-45
Ventilation; *see also* **Lung**
Reproducibility of ventilatory measurements during sleep on different nights in patients with chronic obstructive pulmonary disease (Gothe et al). 1987;109:608-16
Ventricle
Association of cholesterol concentrations in low-density lipoprotein, high-density lipoprotein, and high-density lipoprotein subfractions, and of apolipoproteins AI and AII, with coronary stenosis and left ventricular function (Kempen et al). 1987; 109:19-26
Virus
Antibody responses to immunization of patients with hemophilia with and without evidence of human immunodeficiency virus

(human T-lymphotropic virus type III) infection (Ragni et al). 1987;109:545-9

von Willebrand factor

Binding of human von Willebrand factor to collagen and to collagen-stimulated platelets (Pietu et al). 1987;109: 637-46

W

Watson, Cecil James

Cecil James Watson, M.D. (1901-1983) (Warren). 1987;109:227-8 (Cover illus. note)

Wilson's disease

Treatment of Wilson's disease with zinc. III. Prevention of reaccumulation of hepatic copper (Brewer et al). 1987;109:526-31

Zinc-copper interaction provides a novel and apparently effective alternative therapy for Wilson's disease (Sandstead). 1987; 109:521-2 (Editorial)

X

Xa

Anti-Xa activity of human hepatic triglyceride lipase (Gray et al). 1987;109:653-9

Z

Zinc

Treatment of Wilson's disease with zinc. III. Prevention of reaccumulation of hepatic copper (Brewer et al). 1987;109:526-31

Zinc-copper interaction provides a novel and apparently effective alternative therapy for Wilson's disease (Sandstead). 1987;109:521-2 (Editorial)
